disAbility Law Center of Virginia (dLCV), formerly Virginia Office for Protection and Advocacy (VOPA), offers a Traumatic Brain Injury Program (TBI).

TBI is funded by the U.S. Department of Health and Human Services Traumatic Brain Injury Program as part of a range of activities to help prevent and rehabilitate persons from the impact of TBI.

The role of dLCV and other Protection and Advocacy Systems agencies is to improve access to comprehensive, high-quality services for people with TBI and to reduce the incidence of discrimination against individuals with TBI.

dLCV will work through the TBI grant to help Virginians with TBI and their families know their rights, have barriers reduced to becoming eligible for community services, and to have access to quality health care, rehabilitation, and other services.

Service Area(s)

Statewide
