Event Description

Welcome to the BIAV Brain Injury Support Group! The group is open to adults with acquired brain injury & families/friends of people with brain injury of any age. A brain injury can change just about anything in your life, our goal is to help each other meet the challenge of living with the aftermath of an injury, The format of the meetings vary; it may be a facilitated discussion about a particular topic or the issues members bring with them that evening, or it could be a presentation by a guest speaker. A few times a year, the group splits up to give those with brain injury and their family members a change to meet separately from each other.
