Pittsylvania County Schools' Adult Basic Education Program is designed to assist the County residents who are eighteen years of age and no longer enrolled in school and have not received a high school diploma; or need to brush up on academic or work readiness skills.

Most classes are held from September through May and meet twice a week. Adults may enroll at any time during the year by going to a class site on a scheduled meeting time and enroll. Pre-registration is not necessary. Participants work at their individual pace to acquire the skills needed to meet their individual goals which often include General Educational Development (GED) test.

The Class Schedule with location, days and times may be [view on the website](#).
