Mental Health Care: The goal of Living Free is to provide the highest quality mental health care for individuals, couples and families experiencing social, emotional and/or behavioral problems. Living Free is designed to help clients attain, enhance or re-establish their overall mental health.

Living Free offers Individual, Group, Couples and Family therapy and Hypnotherapy by Certified Practitioners. The target population is males and females, ages 13 through adulthood who have problems with mood disorders, anxiety and stress, crisis, co-dependency issues, compulsion disorders (gambling, sex and spending), adjustment disorders including adjustment to acute and chronic illness, marital conflict, parent-child conflict, family issues, low self-esteem, post traumatic stress and HIV issues. Living Free also offers a Hispanic program for those clients who have a difficult time expressing their thoughts and feelings in English.
