Inova Juniper Program offers primary medical care, case management and support services to eligible medically indigent HIV-infected clients. Medical care is provided by infectious disease physician, nurse practitioner or physician assistant. All aspects of primary medical care and mental health, substance abuse and case management services are offered to HIV positive individuals.

Other medical services available are diagnostic testing, gynecological care, nutritional counseling and patient education. Also provides subsidized medications, lab tests, x-rays and sub-specialty care.

Compassionate, dignified care is provided in several locations around Northern Virginia. [Find a Location](#).
