English

Caregiver Action Network (formerly National Family Caregivers Association) was created to educate, support, empower and speak up for those who care for chronically ill, aged or disabled loved ones.

The Network offers information and education, support and validation, public awareness and advocacy. Family caregivers need to fight for their civil rights and the accompanying education, services, financial assistance and responsive healthcare system needed to overcome the problems our families confront.

Find information about Alzheimer's disease, life as a caregiver, caregiver tactics, finding support and more.
