JSSA provides both in-home and office evaluation to determine the older adult's needs. Once a comprehensive needs assessment has been completed and the specific care, services and programs that would most benefit the senior have been identified, a service plan is created and monitored by JSSA professionals on an ongoing basis. Monitoring ensures that needs are met; resources are identified; services are accessed and delivered in an integrated manner and in accordance with the plan to meet specific needs. The plan is updated and modified as appropriate.

Provides support for independent living to elderly individuals and their families.
