Insight Memory Care Center provides adult day care and supervision of people with middle to late-stage dementia diseases, such as Alzheimer's disease. Offers activities, meals, snacks, and assistance with personal care. The capacity is 60. Can accommodate non-ambulatory individuals.

All activities are simplified and appropriately paced for people with dementia. Exercise sessions are fun, and lively and promote flexibility, balance, and coordination. Small and larger group activities include physical, and mind exercises, music, creative arts, van outings, and intergenerational programs.

The staffing ratio is 1 staff person to every 3 to 4 participants. Staff nurses monitor

health care needs and work with families and physicians to identify conditions that require medical attention.

Languages: Some materials are available in Spanish.
