The doctors at the Chantilly Chiropractic Center treat back, neck, and joint pain with gentle, non-invasive structural and soft tissue care. Services include

- Spinal Manipulation/Adjustment
- Therapeutic Modalities, i.e., electrical muscle stimulation, laser therapy, interferential electro-therapy, intersegmental traction (visit the website for a [description](#) of these modalities)
- Spinal Decompression Therapies
- Customer Orthotics

[Massage Therapy](#) stretches and loosens muscles, improves blood flow, relieves pain, and improves immune responses. In addition, massage facilitates the removal of lactic acid buildup from muscles, and stimulates the release of endorphins into the brain and nervous system.

The massage therapists at the Center are nationally and state certified. For an appointment, call 703-378-2698, option #2.
