The Centra Stroobants Heart Center is the core of Centra's nationally recognized program of cardiovascular care. The center brings together state-of-the art

technology, clinical trials, physician and clinician expertise, and measurable excellence focused on strong clinical outcomes and patient satisfaction.

Offers Cardiac Rehabilitative Services which is a monitored exercise program for people who have had a recent heart attack bypass surgery or angioplasty. This program helps patients return to an active life and make needed life style changes. A cardiac nurse therapist monitors each patient during exercise and provides a risk factor through stress management education the nurse therapist is also able to help you modify your life style for a healthier future.
