Centreville Chiropractic Center offers gentle chiropractic care and massage therapy. Examination to assess your areas of concern; health history will be taken. In order to make an accurate diagnosis, x-ray of the back and neck may be taken. Treatment in the form of chiropractic adjustments, therapies or rehabilitation may be suggested.

Through chiropractic care millions have found a healthier lifestyle with proper diet, exercise and maintaining optimum spinal and nervous system function. Patients of all ages often report higher energy levels and better concentration than they've ever experienced before. For conditions that fall outside the scope of chiropractic care, we have built an extensive referral network to ensure you will see the proper professional.

Other services include acupuncture and trigger point dry needling.
