Patient Assistance Program and Drug Assistance Program. Drug Assistance is for patient who has health insurance that does not cover the drug.

Patient Assistance is for patient who has no health insurance. The drug is sent to the doctor's office if the patient qualifies for the program.

Understanding illness is a necessary part of effective treatment. At Chiron, we are applying an advanced understanding of cancer and infectious disease to create a broad range of innovative treatment options for patients. Our products address a variety of illnesses, including cancer, multiple sclerosis, cystic fibrosis, HIV and hepatitis, and we are using our global presence to make these products readily available to patients in need.
