Inova's support groups are available at a variety of locations in Northern Virginia. Support groups are condition-related and are run individually by individuals or departments who are able to maintain them. Since schedules and locations can change, please call or email the support group organizer before attending.

A variety of breast cancer support groups, including "Survivors Offering Support" (SOS), a peer mentoring group led by survivors trained to provide knowledge, support and encouragement are offered at Inova Alexandria, Fairfax, Fair Oaks and Loudoun hospitals.

Call to see if the general breast cancer support group meets at Inova Fair Oaks Hospital on the 2nd Wednesday of each month from 7:00--8:00 pm.

Facilitated by Sage Bolte. Call 703.698.2520 for more information.
