Physical, occupational and speech therapy is provided in the comfort of your home or assisted living facility (if that is the patient's home). Provides exercise programs and equipment to improve or regain motor function. Improves strength, mobility and ambulation. Teaches patients to manage their environment by focusing on fine muscle training and assists in rehabilitation efforts. Provides rehabilitative services to improve speech, hearing, and language disorders.

Physician can order after surgery, general weakness, balance training and more; therapists can treat in 13 east Tennessee counties. Medicare and most insurances accepted.
