The following Specialty Rehabilitation programs are offered at Lewis Gale Outpatient Rehabilitation Center:

**Aquatic Therapy:** to manage symptoms of patients with arthritis, low back pain, fibromyalgia and joint replacement surgery. Treatment is performed in indoor heated pool.

**Female Incontinence:** to assist with problems related to stress incontinence, urge incontinence, or mixed causes. Treatment may include electrical stimulation, exercise and/or education to improve the bladder.

**Lymphedema:** to assist patients with swelling of the extremities due to an impaired lymphatic system or general swelling. A combination of compression, massage, exercise and education is the treatment.

**Pulmonary:** To assist patients who respiratory disease limits their daily life activities such as self-care, walking, etc

**Hand Therapy:** To treat injuries and diseases affecting the hand.

**Spine Stabilization:** For individuals suffering form acute, chronic or post-surgical neck and back pain.
