Rehabilitation professionals are ready to assist individuals with their recovery process. Staff will evaluate your needs and develop goals to enable you to return home as soon as possible. Occupational therapists will prescribe devices or strategies to improve ease of everyday activities. Physical therapists are trained to assess deficits and utilize exercise, manual techniques and equipment to help patients regain or improve upon their physical abilities and safe mobility. Speech therapists evaluate and treat patients with communication disorders, swallowing difficulties and cognitive deficits.

VitalStim Therapy is an effective treatment for patients suffering with difficulty swallowing and is available at this location.
