Massey offers a wide variety of support services to patients and their families, including free support groups.

Look Good...Feel Better (LGFB) programs are available for women and men and offer practical guidelines to help deal with some of the side effects of cancer treatment such as skin changes, hair loss, stress, and other issues. In particular, the women's program teaches beauty techniques that combat the appearance-related side effects of cancer.

The workshops are free, but registration is required. An individual should be undergoing chemotherapy or radiation treatments, or recently finished with their treatments to participate.

For complete information and to view a group in your area, contact [Look Good...Feel Better](#).

Call the Resource Librarian at 804.828.8709 for more information about support groups.
