Arden Courts of Annandale offers Alzheimer's and Dementia Care. The Special Care Unit is available for individuals with dementia and Alzheimer's disease. The facility provides an environment where residents maintain an optimal level of self-care and independence for as long as possible. Structured activities are planned and supervised by trained professionals.

The Engagement Therapy Treatment program is designed specifically for residents living with memory loss. This approach integrates the unique life experiences of the past with present interests. Programs are based on your loved one's functional abilities and maximize these abilities in a therapeutic environment.

Non-ambulatory residents are welcome. The capacity for assisted living and memory care is 60 residents. ProMedica Memory Care Community (Annandale)
