Chesapeake Care provides prescription medication to many of our patients. There is a $2 processing fee. Many patients also place a voluntary contribution in the donation box. Prescription medications are obtained through the Medication Assistance Program (MAP) or purchased for the patients by the Clinic. Those prescriptions unavailable through MAP or not provided by the clinic may be purchased by the patient at the pharmacy of their choice with a prescription provided by the Clinic.

Chesapeake Care processes hundreds of applications for free medication programs offered by pharmaceutical companies for uninsured and low-income patients. These medications are processed by the pharmacist and dispensed to patients at the scheduled pick-up times.
