Yellow Cab of Prince William County offers a disability-accessible taxi service. Individuals can be transported in their wheelchair or, if able, the chair can be placed in the back with the individual in a standard passenger seat. Drivers have received training in the proper securing of mobility devices and all have passed an extensive training course through the Independence Empowerment Center and other resources. Accessible vehicles are equipped with ramps and safety restraint systems. Vehicles are Americans with Disabilities Act (ADA) compliant and will accommodate standard-sized wheelchairs and power chairs with four comfortable seats for other passengers. The vans can also accommodate standard-sized scooters. It is highly recommended that a passenger on a scooter be able to transfer themselves to a passenger seat for their safety.
