Regent Healthcare offers skilled nursing care in your home. Services can assist patients recovering from illness, injury or surgery, or help guide families in caring for their loved one in the home. A brief list of services available include initial assessment and evaluations; pre-operative and post-operative care; medication management and administration; catheter care/change; diabetic care; wound care; IV injections and blood draws; blood sugar testing; hospice assistance and elder care management.

Please call the office for more information.
