A comprehensive multilingual and multicultural hospice service.

Hospice care services are provided by a team of health care professionals who maximize comfort for the terminally ill person by reducing pain and addressing physical, psychological, social and spiritual needs. To help families, hospice care also provides counseling, respite care and practical support. Unlike other medical care, the focus of hospice care isn't to cure the underlying disease. The goal of hospice care is to support the highest quality of life possible for whatever time remains.

A hospice nurse and doctor are on call 24 hours a day, seven days a week to give you and your family support and care when you need it.
