The Lifeline Personal Emergency Response System is provided by the Senior Health Department of Virginia Hospital Center.

Lifeline uses with a lightweight, waterproof help button worn by a senior that works in tandem with a small device installed in your home. If you need help, a signal is sent to Lifeline central to respond to an emergency need, 24 hours a day, 365 days a year.

In addition, Lifeline with AutoAlert provides an added layer of protection by automatically placing a call for help if a fall is detected and you can't push your button because you are disoriented, immobilized, or unconscious.

For more information on Lifeline, please call at 703-558-6859.
