English

Senior Connections offers a support group for resources and a place to connect and share with others who understand. Frontotemporal Degeneration (FTD) is a group of related conditions resulting from the progressive degeneration of the temporal and frontal lobes of the brain. These areas of the brain play a role in decision making, behavior controls, emotions, and language.

Senior Connections has an Association for Frontotemporal Degeneration affiliated leader who has participated in additional FTD training to run the support group. Offered the 3rd Thursday of every month at 3:00 pm.

This support group is being offered virtually, so anyone with interest may join in.

Service Area(s)

Richmond City

,
