[Medicare Annual Wellness Visit Tips and Resources](#)

Find the resources and information you need to understand and schedule your Medicare Annual Wellness Visit.

What is the Medicare Annual Wellness Visit?

The Medicare Annual Wellness Visit (AWV) provides a time to meet with your primary care physician (PCP) to create or update a personalized plan to help prevent illness based on your current health and risk factors.

Annual Wellness Visit Tips

- Bring your medical records to the wellness visit including a list of your prescriptions, over-the-counter drugs, and supplements.
- Include a list of your current doctors and other health providers. Be prepared to discuss your family medical and health history.
- During the visit you will complete the *Medicare Total Health Assessment*. Your physician will provide education and counseling about preventive services, and discuss any health issues that are identified that may need follow-up.
- After the AWV you may need to set up a more in-depth appointment to address specific diagnostic or health care needs.
